Meritorious Service Awards have been introduced to acknowledge outstanding service performed by members of our Association. This award allows branches to acknowledge the work that members perform for a branch. It is acknowledged by a special membership badge and the status of life subscription. Meritorious Service Awards are only available to existing financial members who have been members for over twelve months. Applications are made by the branch to the state management committee. Interim members cannot receive this award. This is a branch award and the members of the branch are responsible for the award criteria.
